All randomized subjects
(n=121)
1
Specific LBP or other pathology
(n=8 excluded)
Non – specific CLBP
(n=121)
2
Mechanically provoked CLBP
(n=113)
3
Pelvic pain
(n=6)
Low back pain
(n=107)
4
Decreased
force closure
(n=5)
Increased force
closure
(n=1)
Control
impairment
(n=101)
Movement
impairment
(n=6)
5
Directional
subgroups
Directional
subgroups
Flexion
(n=40)
Passive
extension
(n=5)
Active
extension
(n=7)
Lateral
shift
(n=5)
Multi
directional
(n=44)
Flexion
(n=43)
Extension
(n=43)
6
Presence of significant cognitive / psychosocial factors
Yes (n=32)
No (n=81)
